LANGLEY LIBRARY SIGNAGE SPECIFICATIONS | NO. 2024.06.24

Addendum # 1 – July 3, 2024

Attachments to Addendum # 1

- Attachment # 1 – 2024-07-03 Langley Signage Package – Addendum 1
- Attachment # 2 – 2024-07-03 Langley Signage Supplement – Addendum 1

Questions

- Question: I don't find a page for this in Attachment A, can you provide the finish size specs for each?
 - [Vector files can be found at this link:](#)
 - [2024-07-03 Signage Graphics Vendor Package.ai](#)
- Question: For the Edmonds Library project, we were approved to use 3M Dusted Crystal in place of the Skyline Design material. Please advise if I can bid using the same here.
 - [Skylight Design film can be substituted with 3M Frosted Crystal.](#)
- Question: iS – Are these signs single or double-sided? (Edmonds was double-sided)
 - [Single sided](#)
- Question: I'll need specs to determine the finished size of each sign and sign holder and the necessary raw material to produce each – maybe this is in the schedule?
 - [The draft specifications can be found in the table below. Confirmation with the owner will be required before production.](#)
 - (2) - Audiobooks
 - (1) - Biographies
 - (1) - Book Sale
 - (2) - Fiction
 - (1) - Friends of the Langley Library
 - (2) - Graphic Novels
 - (2) - Holds
 - (2) - J Fiction
 - (2) - J Nonfiction
 - (1) - Large Type
 - (3) - Movies
 - (1) - Mystery
 - (4) - New Books
 - (1) - Periodicals
 - (2) - Picture Books
 - (1) - Readers
 - (2) - Teen
 - (2) - World Languages
- Question: iD-1 – the 3” height for these letters may be a challenge. For the Edmonds library we had 4”H aluminum pin-mounted letters and it was difficult to attach a pin that is smaller than the thickness of the letters and not visible. Is there an opportunity to increase the size of the letters or flush apply to the wall without standoffs?
 - [4”H sign is acceptable.](#)
